Management Discussion and Analysis Report

1. Industry Structure and Development and Outlook

The Asia Development Bank projected that the Economies in Asia and specific will continue to feel the blow of Covid 19 pandemic this year even as the lockdowns are slowly eased and select economic activities restart in a new normal scenario. While we see a higher growth outlook for the year, this is mainly due to weak numbers this year and this will not be a v-shaped recovery. The Covid -19 pandemic may see multiple waves of outbreaks in this coming period and sovereign debt and financial crisis can not be ruled out. The Reserve Bank of India earlier in May projected a gloomy picture of the economy, saying that the covid impact will be severe than anticipated and the GDP growth during the period remain negative. In India, the finance ministry in a report released said that India's gross domestic product is expected to contract 4.5% in infrastructure sector is a key driver for the Indian economy. This sector include power, bridges, dams, roads and urban infrastructure development. In India, every economic planning huge thrust have been given to this sector.

2. Opportunities & Threats

Tarmat has been the pioneers in airport runway works and airside works. We have also been executing highways and roads. India has a requirement of investment worth Rs.50 trillion in infrastructure by 2022 to have sustainable development in the country. India is witnessing significant interest from international investors in the infrastructure space. In April this year Govt . set a target of constructing roads worth Rs.15 lacs crores for next two years. With prelude to Government of India's policy it is expected to invest highly in the infrastructure sector, mainly highways, renewable energy and urban transport. The Government of India has announced massive investment in this sector in the 2019-20 budget. Your Company has number of projects in hands to be executed by next year valuing about 450 crores. S&P Global ratings said that India's infrastructure deficit is too large and the country still has a long way to go before it can close the sizable deficit between supply & demand. The reasons are simply lack of affordability of consumer, social apathy for infrastructure, political unwillingness, No land availability, inflation cost, inflation, absence of finance, Unwillingness of officers, lack of benchmark, very long tender process amongst the others.

3. Internal Control

The company has a proper and adequate system of internal controls covering all operational and financial functions commensurate with the size of the company. The company's internal control is designed in such a way that it ensures corporate strategy is implemented, achieve effective and efficient corporate processes, safeguard the value of corporate assets, reliability and integrity of accounting and management data, and operations comply with all existing rules and regulations. All the financial and audit control systems are also reviewed by the Audit Committee of the board of Directors of the company.

4. Operations

The Company's operations are continued in the areas of implementing projects in areas such as airport, roads, bridges, etc. In all the areas, the company continued its focus on cost reduction and cost control at all levels.

5. Human Resources and Industrial Relations

The company understands the value of acquiring the highly intellectual human capital which the company believes is a crucial asset of the company. For this purpose, company follows the strategy "to attract, to retain and to motivate" the personnel through providing the framework for helping employees develop their personal and organizational skills, knowledge, and abilities. We have focused on to build positive attitude in the employees while working with Tarmat Limited. Tarmat Limited follows the principle - "good performance should be appreciated by good rewarding."

6. Risk and Concerns

The construction industry is the second largest contributor to India's GDP. It not only has economic potential but is also among the biggest employment providers. Owing to the nature of the industry the Company operates in, it is exposed to a variety of risk factors which are broadly categorized into financial, technical, construction policy, political, market and legal. A tight risk process is carried out from pre-bid to project completion stage to manage, mitigate and monitor these risks by adopting specific risk mitigation measures.

During the year, the Board has reviewed the process and the Risks that have already been identified for the business and necessary action for mitigation has been initiated. Infra sector is crumbling as project delays, cost overruns and financing woes mount. Even new models like hybrid-annuity are proving to be unviable. Private

sector investment is the key to revival, but the return of private capital may be delayed because of the inherent weakness in financial markets.

The top major constraints in infrastructure development over the next three years are thought to be corruption, political and regulatory risk, and access to financing and macroeconomic instability. This last is a shared concern troubling emerging-market economies.

Some of the crucial risks impacting the Company's overall governance are given below:

Liquidity risk, Interest rate risk, Credit risk, Commodity price risk, foreign currency fluctuation risk, Market risk, Salary risk, Interest risk, Investment risk, Health, Safety And Environment Risks, Political, Legal And Regulatory Risks, Fraud and Cyber Security, Other Operational Risks, Counter Party Risks and Working capital challenges.

“Annexure-B”**TARMAT LIMITED****Report on the Internal Financial Controls under Clause (i) of****Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”) for the year ended 31st March 2020**

We have audited the internal financial controls over financial reporting of TARMAT LIMITED (“the Company”) as of March 31, 2020 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Change in Management

Mr. Amit Shah has been appointed as Executive Director and Mr. Jerry Varghese and Mr. Dilip Varghese have resigned as directors of the company.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance 168 Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2020, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

**Annexure A to the Independent Auditors Report of even date on the Consolidated Financial Statements of
Tarmat Limited**

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”) for the year ended 31st March 2020

To the members of Tarmat Limited

In conjunction with our audit of the consolidated financial statements of Tarmat Limited as of and for the year ended 31st March 2020, we have audited the internal financial controls over financial reporting of TARMAT LIMITED (“the Company”) and its four Joint Ventures as of March 31, 2020.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance 168 Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2020, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

d. Key accounting estimates

The preparation of the financial statements, inconformity with the recognition and measurement principles of Ind AS, requires the management to make estimates and assumptions in the application of accounting policies that affect the reported amounts of assets, liabilities, income, expenses and disclosure of contingent liabilities as at the date of financial statements and the results of operation during the reported period. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates which are recognized in the period in which they are determined.

The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the financial statements in the period in which changes are made and if material, their effects are disclosed in the notes to the financial statements.

- (ii) Subsequent expenditure relating to property, plant and equipment is capitalized only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance costs are charged to the statement of profit and loss as incurred.

- (vi) The Company depreciates property, plant and equipment on written down value method except for building, plant and machinery, laboratory equipment and excavators where depreciation is provided on straight line method over the estimated useful life prescribed in Schedule II of the Companies Act, 2013 from the date of the assets are ready for intended use after considering the residual value.
